# About Us

J & E Livestock LLC is proud to be a family owned business with our main location in Waverly, Iowa, and an additional location in Alpha, Illinois. Owners, Jared and Emily Skillen, both grew up around animals and after marrying, purchased their own farm where they raise their family and a herd of cattle and run J&E Livestock LLC.

Jared and Emily originally started the business selling bedding shavings and then branched out to livestock equipment a couple years later, and has continued to grow the business from there.

Today, J & E Livestock LLC offers anything from bedding shavings, to a variety of livestock handling equipment, feeders, fencing supplies, shelters, pipe, custom trucking services, along with nationwide delivery. We are constantly adding new products, dealers, and locations to fit our customers needs better.

We strive to provide top quality products and service to our customers. If we wouldn't use it on our farm, then we are not going to sell it.
